

BIOTIN GOLD

Supports healthy hooves, coat, mane and tail

Characteristics

Complementary dietetic feed for horses, ponies and camels to support the regeneration of hooves, feet and skin.

Prequine Biotin Gold is produced according to GMP+ FSA quality guidelines. Prequine Biotin Gold contains among others Biotin, Zinc, Copper, several vitamins, Methylsulphonyl methane (MSM), Methionine and Cysteine, which promote quality of, and contribute to, healthy growth of the hooves, coat, mane and tail. Biotin is added on a high level, which has a positive influence through its role in keratin production on hoof quality, contributing to the creation of harder and less brittle hooves. Next to improving hoof quality, it also plays a supporting role in hair condition (coat, mane and tail). Zinc is an important mineral in the hoof and hair formation, as it induces the keratin production. Copper, Biotin and Zinc work synergetic to help maintain hoof health and support the production of keratin. Methionine and Cysteine are amino acids that play a vital role in the production of keratin, supporting the growth and strength of hooves and hair. Vitamins A, C, B3 (niacinamide), and B5 (Calcium-D-pantothenate) are added as they give antioxidant protection and support the collagen synthesis. MSM is added as a natural source of sulphur, which is essential for the formation of collagen. Collagen is involved in the keratin process, as well as being a major component of connective tissue, thereby aiding in healthy hooves, coat, mane and tail.

Directions for use

Mix with feed.

Horses: 1 x 25 g per day.

Ponies or foals: Half of the above-mentioned quantity.

Racing camels 1 x 30 g per day.

Take into account the maximum allowed content of Zinc in total ration.

Use for a maximum of 8 weeks straight or consult a veterinarian in case of use for longer periods due to the high Zinc content.

Storage

Store dark and dry at 15 - 25°C.

Close packaging after each use.

Keep out of sight and reach of children.

Presentation

Bucket à 2 kg. Bucket à 4 kg.

Sachet à 25 g.

Shelflife

3 years from manufacturing date (MFD).

Composition

Contains:

Monocalcium phosphate, Calcium carbonate, Magnesium oxide, Methylsulphonylmethane (MSM), Dextrose.

Feed additives per kg:

Amino Acids: 3c301, DL-Methionine, 120 g; 2a920, L-Cystein HCl, 38,5 g. Vitamins: 3a672a, Vitamin A, 520.000 IU; 3a315, Niacinamide, 7.000 mg; 3a841, Vitamin B5, 6.000 mg; 3a880, Biotin, 1.600 mg; 3a312, Vitamin C, 6.000 mg. Trace elements: 3b103, Iron, from Iron(II) sulphate monohydrate, 3,6 g; 3b406, Copper, from Copper(II) chelate of amino acids hydrate, 2,4 g; 3b603, Zinc, from Zinc Oxide, 15 g; 3b606, Zinc, from Zinc chelate of amino acids hydrate, 5,5 g.
